### **About the Artist**

Born in 1971 in Ankara, I currently live in Istanbul. I hold a degree in Business Administration.

Alongside my professional career, I have always remained connected to art, participating in studies and workshops on marbling (ebru), calligraphy, miniature, oil painting, and charcoal drawing.

Keeping my artistic passion alive over the years, I continued creating as an amateur with sincere enthusiasm.

I have worked on wood carving, stone painting, and panorama designs made from various materials, often inspired by nature and everyday life.

As an artist working in the field of handicraft, I reinterpret the details of daily life through miniature forms.

Using materials such as wood, relief paste, and acrylic paint, I create small-scale yet emotionally rich scenes that invite viewers into intimate worlds.

Objects like books, bookshelves, desks, lamps, pots, figurines, chairs, pens, notebooks, and ship models form part of my visual narrative — blending craftsmanship, nostalgia, and imagination.

Each piece is the result of patience, craftsmanship, and a passion for detail, aiming to evoke both familiarity and a sense of wonder.

### **Hakkımda,**

1971 yılında Ankara'da doğdum, řu anda İstanbul'da yaşıyorum. İşletme bölümünden mezun oldum. Mesleki kariyerimin yanı sıra, ebru, hat sanatı, minyatür, yağlı boya ve karakalem resim üzerine çalışmalar ve atölyelere katılarak sanatla bađımı hiç koparmadım. El sanatları alanında çalışan bir sanatçı olarak, günlük yaşamın ayrıntılarını minyatür formlarla yeniden yorumluyorum. Kitaplar, kitap rafları, masalar, lambalar, saksılar, figürinler, sandalyeler, kalemler, defterler ve gemi modelleri gibi nesnelere, zanaatkarlık, nostalji ve hayal gücünü harmanlayan görsel anlatımın bir parçasını oluşturuyor.
